GAZETTEER TO AMS 1:25,000 MAPS OF WEST GERMANY

Names in this gazetteer appear on AMS 1:25,000 (AMS M841 Series and AMS M842 Series) maps of West Germany. The index at the back of this gazetteer indicates the location of the sheets.

According to present plans, the M842 series (Bavaria 1:25,000) will eventually be converted to M841 sheet lines. Therefore, names appearing on present M842 sheets have been listed with reference to the anticipated M841 sheet layout and marked with an asterisk. A separate gazetteer exists for interim use with the M842 series.

Column I, Name.—Names are listed in the form in which they appear on the maps, alphabetized to 16 places. Alphabetization was accomplished in the following sequence: space, period, ampersand, hyphen, diagonal, comma, apostrophe, letters of the alphabet, and numerals 0 to 9.

Example:

KLEIN BERG	KLEIN - KARLE	KLEIN' FEN
KLEIN. AUMAN	KLEIN / GOLDACH /	KLEINE
KLEIN & KLEIN	KLEIN, GRUND	9 KLEIN

Note: Parentheses are represented by diagonals (see listing immediately above).

Some spelling corrections have been made to these names, with the result that the gazetteer indicates a more recent or preferred spelling than the maps. These changes will be incorporated into any revised map edition.

Column II, Designation.—Code designations in this column

describe the feature to which the name applies. For the key to the code designations used, see p. iv. Code designations have been limited to no more than four letters.

Column III, Grid Ref.—The grid reference for each name consists of a two-letter 100,000-meter square identification, followed by a four-digit number. The grid reference may be used to locate the named feature on the map in the following manner:

First, locate the north-south grid line labelled with the two large figures (ignore the smaller figures) corresponding to the first two digits of the grid reference in the gazetteer. Second, locate the east-west grid line in the same manner as the north-south line, but using the last two digits of the grid reference in the gazetteer. The named feature will be found to the east and north in the immediate vicinity of the intersection of these two grid lines. (The two-letter 100,000-meter square identification should be ignored.)

Column IV, Sheet No.—Sheet number shows the number of the map on which the named feature appears.

Column V, Lat.—The latitude of the named feature is given to the nearest minute, as computed from the scaled grid reference.

Column VI, Long.—The longitude of the named feature is given to the nearest minute, as computed from the scaled grid reference.

Generic	Abbr.
AF	airfield, airport
AN	area name
AQDT . . .	aqueduct
BAPL . . .	bathing place
BAR . . .	barracks
BDRY . . .	boundary
BEAC . . .	beacon
BLDG . . .	building, castle, house, hut, cabin, lodge
BRDG . . .	bridge
CARN . . .	cairn(s)
CEM . . .	cemetery
CHCH . . .	church, chapel
CLIF . . .	cliff(s)
CNAL . . .	canal(s)
CNVT . . .	convent
COMS . . .	communications, radio station
COND . . .	conduit
CRRD . . .	crossroads
DEPR . . .	depression
DTCH . . .	ditch
EBKT . . .	embankment
EST . . .	estate
FERY . . .	ferry
FLD . . .	field, athletic field
FORT . . .	fortification, earthwork, redoubt

Generic	Abbr.
FRST . . .	forest
FTRY . . .	factory
GAGE . . .	water gauge
GRGE . . .	gorge, ravine
HOLE . . .	hole, pit
HOSP . . .	hospital
ISL . . .	island
LCKS . . .	locks
LH	lighthouse
MDW . . .	meadow
MONU . . .	monument, triangulation station
MRSH . . .	marsh, swamp
MT	mountain
MTS . . .	mountain slope
NURS . . .	nursery
OBSR . . .	observatory
PARK . . .	park, game reserve
PASS . . .	passage
PAST . . .	pasture
PAV . . .	pavilion
PLDR . . .	polder
PLN . . .	plain(s)
PM	peat moor
POPL . . .	city, town, village, settlement, hamlet
PPL . . .	power plant
RDGE . . .	ridge

Generic	Abbr.
RDIO . . .	radio station
RR	railroad
RSTA . . .	railroad station
RSVR . . .	reservoir
